-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/5/2006 has been entered.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 21 – 41 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 21, 36, 40 and 14 recite “a low content of quaternary ammonium groups”. Absent a specific definition in the specification, the artisan would not know how many ammonium groups could be present to qualify as a “low content”, as recited, and would therefore be unable to discern the metes and bounds of the claimed invention.

The remaining claims are rejected as depending on one of the abovementioned claims, thus incorporating the indefinite limitations thereof.

Note that the issues raised under this statute in the previous office action regarding claims 36, 38, and 39 have been resolved by the amendment, however, these claims remain rejected under this statute for the reasons discussed above.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 21 - 41 **remain** ejected under 35 U.S.C. 103(a) as being unpatentable over 2,149,052 in view of EP 0 421 921 and Canadian Pat. 1,305,166.

Response to Arguments

Applicants' arguments have been fully considered, but are not persuasive. Applicant argues that the EP reference, which is relied upon for its teaching of coatings, does not teach the coatings of instant claims. Specifically, Applicant argues that instant invention does not use an enteric coating, and does not use a double-coating.

In response, it is noted that the coating of EP has the same ingredients as that of instant claims. Instant comprising claim language allows for the inclusion of additional ingredients, including additional functional coatings.

Conclusion

No claims are allowed. No claims are free of the prior art.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric E. Silverman, PhD whose telephone number is 571 272 5549. The examiner can normally be reached on Monday to Friday 7:30 am to 4:00 pm.
